NEW YORK, April 29 .- in the immediate opening the stock market was somewhat erratic, some stocks taking jumps of a point or two, others hesitatjumps of a point or two, others hesitating and then making slow progress, while some few were weak from the very start. The leaders, the high-graderails, all got under way almost immediately with a good start, and Reading. Northern Pacific, and St. Paul hurdled good advances in the shortest possible time. It looked like another runaway market, with the list ready to follow the leaders, and conservatism chiefly noticeable because of its absence.

But the rest of the list did not fol-But the rest of the list did not follow, and some one took occasion to turn loose a few thousand shares, which gave the leaders a quick right-about, and half of the early gains were lost. Reading, which had advanced to 112 from an opening at 100%, turned back to 110%. Great Northern was barely steady at yesterday's close. Union Pacific was actually a fraction lower, and Northern Pacific dropped back from 133% to 132. Here the market steadied, railied a little, and passed into the noon hour a little slow, but apparently very firm.

Some Influences.

Engagements for \$1,500,000 gold for exyort were announced. The failure of Coster, Knapp & Co. was confirmed, and the suicide of Mr. Coster reported.

Railroad financing for the next few menths will necessitate floating some \$51,000,000 of securities.

The Southern Pacific Railroad Company has been able to turn a heavy decrease in gross earnings into a good net gain by reducing expenses—the decrease in operating expenses amounting in March to \$957,785, while the shrinkage in gross was but \$632,600. This was responsible for a very sharp gain in the price of Southern Pacific, from a close at 784 yesterday to 80 for high. Despite the generally accepted theory that the United States Steel Corporation would have to draw on its surplus to pet charges and pay dividends for the farch quarter, the earnings were sufficent to pay charges, dividends, and ave a surplus of \$7.867. This is a close chave, and was made at the expense of depreciation charges. The unfilled orders amount to 3.765,000 tons, smaller than at any time since 1903.

WHAT HAS HE DONE?"

-NAPOLEON'S FAMOUS QUESTION.

All conservative business men are unanimous on one point. They fully concur that it is wiser—far wiser—to intrust their building enterprises to the tried, experienced and reliable builder instead of the other kind. Experience is worth something—oftentimes very costly—and it is always best to profit by the experience of others instead of letting so-called builders gather experience at your expense. My wide experience is at your disposal. Ask

The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "glit edge" investments. They do not depend upon the financial responsibility of individuels or corporations for their stability, and are ex-empt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet. "Con-cerning Loans and Investments."
